## SUBJECT INDEX

1966, Volume 28

- Acid base balance in acute myocardial infarction (McNicol & Kirby). 851, P.
- Androsterone, associated with clofibrate, effects on blood platelets and lipids in ischaemic heart disease (Fox & Hugh). 400
- Aneurysm, ventricular, cardiac impulse in (Moudjinis *et al.*). 430, P.
- Angina pectoris, haemodynamic effects, and of nitroglycerin in anginal subjects (Hoeschen *et al.*). 221
- — historical approach, (Michaels). 258
- — effect of propranolol (Inderal) on exercise tolerance (Hamer *et al.*). 414
- — propranolol (Inderal) in, prophylactic value (Rabkin *et al.*). 430, P.
- Aorta, dissection, following cannulation of the iliac artery: case report (Dongaonkar). 431
- right-sided, part I, occurrence of right aortic arch in various types of congenital heart disease, part II, right aortic arch, right descending aorta and associated anomalies (Hastreiter *et al.* (part I); D'Cruz *et al.* (part II)). 722
- Appendages, atrial, myocardium, ultrastructure (Lannigan & Zaki). 796
- Arch, aortic, congenital abnormalities in subclavian-steal pattern of blood flow: case report (Bradley). 718
- Arrest, circulatory, elective, by artificial pacemaker (Small *et al.*). 427, P.
- Arrhythmias, cardiac, adrenergic beta-receptor blockade in treatment (Bath & Turner). 850, P.
- — direct current shock therapy of (Szekely *et al.*). 366
- Arteriography, coronary, value in ischaemic heart disease (Hale *et al.*). 40
- Arterioles, intestinal, morphology in chronic human hypertension (Short). 184
- Arteriosclerosis, coronary, diagnosis and plasma lipid levels, England (Mills & Wilkinson). 638
- Artery(ies), bronchial, arising from subclavian arteries with pulmonary atresia: case report (Tynan & Gleeson). 573
- coronary, disease, complicating aortic valvar disease, experiences with bypass surgery (Boyle *et al.*). 428, P.
- — historical approach (Michaels). 258
- — — see also Heart disease, coronary
- — left anomalous, arising from pulmonary artery, 4 cases (Losekoot *et al.*). 646
- — iliac, cannulation, acute aortic dissection following: case report (Dongaonkar). 431
- — pulmonary, anomalous left coronary artery arising from, 4 cases (Losekoot *et al.*). 646
- — — atresia, with bronchial arteries arising from subclavian arteries (Tynan & Gleeson). 573
- — — catheterization, percutaneous technique without fluoroscopy (Bevegard *et al.*). 842
- — renal, subadventitial fibrosis of, causing hypertension (Lytle & McCaughey). 382
- Asystole complicating acute myocardial infarction, artificial pacing by electrode catheter for (Epstein *et al.*). 546
- Atheroma, localization, theory based on boundary layer separation (Fox & Hugh). 388
- ATP: creatine phosphotransferase in diagnosis of acute chest pain (Griffiths). 199
- Atresia, pulmonary, with bronchial arteries arising from the subclavian arteries: case report (Tynan & Gleeson). 573
- Atrium, function following cardioversion (Logan *et al.*). 428, P.
- left, primary sarcoma: case report (Raftery *et al.*). 287
- right, medial relations (Walmsley & Watson). 850, P.
- Atropine, effect on bradycardia and hypotension in acute myocardial infarction (Thomas & Woodgate). 409
- Beta-adrenergic blockade, *see* Blockade
- Block, heart, complete, myocardial threshold and impedance in, methods for assessing pacemaker function and malfunction (Judge *et al.*). 427, P.
- — complicating acute myocardial infarction, artificial pacing by electrode catheter for (Epstein *et al.*). 546
- right bundle-branch, with left axis deviation (Saltzman *et al.*). 703
- sino-atrial, Wenckebach phenomenon (Schamroth & Dove). 350
- Blockade, beta-adrenergic, in angina pectoris, effect on exercise tolerance (Hamer *et al.*). 414
- — distinction between negative inotropic and chronotropic effects (Bloomfield *et al.*). 849, P.
- — influence on left atrial contraction in ischaemic and hypertensive heart disease (Fleming & Hamer). 850, P.
- — in treatment of cardiac arrhythmias (Bath & Turner). 850, P.
- Blood, arterial and venous, chemistry, in relation to ventilation in heart disease (Gazetopoulos *et al.*). 16
- flow, myocardial, measurement with <sup>133</sup>Xenon, effect of glyceryl trinitrate in dogs (Rees *et al.*). 374
- — pulmonary, carbon monoxide diffusion of lungs in assessment, in intracardiac shunts (Lewis & Brink). 359
- pressure, effect of degree of tilt in normal man (Tuckman & Shillingford). 32
- Boundary layer separation, and localization of atheroma (Fox & Hugh). 388
- Bradycardia, in acute myocardial infarction (Fluck *et al.*). 430, P.
- effect of atropine on, in acute myocardial infarction (Thomas & Woodgate). 409
- Brenner, Oscar, obituary. 134
- Bronchitis, chronic and emphysema, electrocardiogram (Chappell). 517
- left ventricular hypertension in (Fluck *et al.*). 92
- with emphysema, right ventricle and pulmonary vascular obstruction in (James). 512
- Calcification, spiral, in the ventricular myocardium (Kirk & Russell). 342
- Calibration of dye dilution curves, use of computer (Hamer *et al.*). 147
- — — in a physiological system (Emanuel *et al.*). 143
- Carbon monoxide diffusion of lungs in assessment of pulmonary blood flow in intracardiac shunts (Lewis & Brink). 359

- Cardiogram, apex, a wave in idiopathic hypertrophic subaortic stenosis (Wolfe). 179
- Cardiomyopathy(ies), hypertrophic obstructive, cardiac impulse in (Nagle *et al.*). 419
- obstructive, right ventricular involvement, haemodynamic studies in 13 cases (Lockhart *et al.*). 122
  - unexplained, heart failure from (Barritt & Al-Shamma'a). 674
- Cardiovascular investigation, computers in (Taylor *et al.*). 426, P.
- Cardiovascular Research*, a new quarterly journal to be published by B.M.A. in 1967, (Editorial), 721
- Cardioversion, atrial function following (Logan *et al.*). 428, P.
- following open-heart valvular surgery (Yang *et al.*). 309
- Catheter(s), double-lumen, percutaneous intravenous insertion (Jonsson). 845
- electrode, artificial pacing by, for heart block or asystole complicating acute myocardial infarction (Epstein *et al.*). 546
  - and diagnosis of Ebstein's anomaly of the tricuspid valve (Watson). 161
- Catheterization, left heart, with special reference to trans-septal method (Nixon & Ikram). 835
- pulmonary artery, percutaneous technique without fluoroscopy (Bevegard *et al.*). 842
- Chest pain, acute, diagnosis, ATP: creatine phosphotransferase in (Griffiths). 199
- Cholesterol, *see* Lipids
- Chordæ tendineæ, rupture, and mitral regurgitation (Mar-chand *et al.*). 746
- Cine-angiographic findings in prolapse of mitral valve (Criley *et al.*). 488
- after one-stage repair of tetralogy of Fallot (Gotsman). 448
- Circulation, pulmonary, disorders, selective cinefluoroscopic studies (Raphael & Steiner). 523, 428, P.
- in renal vascular disease (Taylor & Donald). 851, P.
- Circulatory changes, in acute myocardial infarction with systemic hypotension (Thomas *et al.*). 108
- — *see also* Hæmodynamics
- Clofibrate, effects, with and without androsterone, on blood platelets and lipids in ischaemic heart disease (Carson *et al.*). 400
- Computer(s), use in calibration of dye dilution curves by a dynamic method (Hamer *et al.*). 147
- in cardiovascular investigation (Taylor). 426, P.
- Contraction, left atrial, influence of beta-adrenergic blockade in ischaemic and hypertensive heart disease (Fleming & Hamer). 850, P.
- Conversion, direct current, of atrial fibrillation (Halmos). 302
- — *see also* Shock therapy
- Cor pulmonale, schistosomal, changes in media and intima of pulmonary vessels, 10 cases (Chaves). 599
- Cor triatriatum, masked, 2 cases (Somerville). 55
- Cotton, Thomas Forrest, obituary, 134
- Curves, dye dilution, *see* Dye dilution curves
- Cyanotic attacks, pronethalol for (Singh & Gotsman). 98
- Defect, atrial, septal, Q-1 interval of phonocardiogram in, (Karnegis & Wang). 240
- Dehydrobenzperidol and phenoperidine, neuroleptanalgesia with, clinical and circulatory effects (Macdonald *et al.*). 654
- Dehydroemetine, toxicity, enzymatic electrocardiographic study (Dempsey & Salem). 505
- Dextrocardia and isolated levocardia. I: Situs inversus and isolated dextrocardia (Campbell & Deuchar). 472
- Digitalis, action, and ions (Weatherall). 497
- Dipyridamole, hæmodynamic effects at rest and during exercise, healthy subjects (Bousvaros *et al.*). 331
- Drainage, venous, pulmonary, obstructed total anomalous (Somerville & Chrispin). 428, P.
- Ductus arteriosus, patent, in an elderly man: case report (Calne & Raftery). 716
- Eisenmenger, differential hypercapnia in relation to the dyspnoea of cyanotic congenital heart disease (Davies & Gazetopoulos). 429, P.
- Dye dilution curves, calibration, use of computer, dynamic method (Hamer *et al.*). 147
- — — in a physiological system, dynamic method of calibration (Emanuel *et al.*). 143
- Ebstein's anomaly of the tricuspid valve, diagnostic value of electrode catheters (Watson). 161
- Editorial: *Cardiovascular Research*, a new quarterly journal to be published by B.M.A. in 1967, 721
- Effusion, pericardial, chronic idiopathic, two cases (Brown). 609
- Electrocardiography in chronic bronchitis and emphysema (Chappell). 517
- in complete transposition of the great vessels (Shaher & Deuchar). 265
  - enzymatic, in toxicity of dehydroemetine (Dempsey & Salem). 505
  - lead systems, corrected (Frank), uncorrected (cube) and standard, in right ventricular hypertension (Gamboa *et al.*). 62
  - leads, II and III, limb significance of S waves (Evans). 829
  - — appropriate, diagnostic value (Cliff). 780
- Embolism, coronary, paradoxical: case report (Watt). 570
- Emphysema, and bronchitis, right ventricle and pulmonary vascular obstruction in (James). 512
- — chronic, electrocardiogram (Chappell). 517
- Endocardium, atrial, normal, ultrastructure (Lannigan & Zaki). 785
- Exercise, effect on pulmonary stenosis with intact ventricular septum (Ikks *et al.*). 316
- haemodynamic changes in patients with left-to-right shunts (Davies & Gazetopoulos). 579
  - in pulmonary stenosis, haemodynamic effects (Howitt). 152
  - pulmonary ventilation in left-to-right shunts (Gazetopoulos & Davies). 590
  - tolerance in angina pectoris, effect of propranolol (Inderal) on (Hamer *et al.*). 414
  - upright, graded, comparison of cardiorespiratory responses, normal men, aged 20–29 and 30–39 (Hanson *et al.*). 557
- Fibrillation, atrial, cardioversion following open-heart valvular surgery (Yang *et al.*). 309
- — direct current conversion (Halmos). 302
- Flow, blood, collateral, in myocardial infarction, experimental, recovery changes measured with  $^{131}\text{Xe}$  (Rees & Redding). 851, P.
- Glyceryl trinitrate, effect on myocardial blood flow, dogs (Rees *et al.*). 374
- Hammersmith mitral valve prosthesis, evaluation (Dayem *et al.*). 849, P.
- Hæmodynamics, and ventilation in heart disease (Gazetopoulos *et al.*). 1
- in acute myocardial infarction with systemic hypotension (Thomas *et al.*). 108
  - effects of angina pectoris, and of nitroglycerin in normal and anginal subjects (Hoeschen *et al.*). 221
  - exercise in patients with left-to-right shunts (Davies & Gazetopoulos). 579
  - — in pulmonary stenosis (Howitt). 152

- Hæmodynamics, findings of paired stimulation of the heart (Resnekov *et al.*). 427, *P.*
- after one-stage repair of tetralogy of Fallot (Gotsman). 448
  - pulmonary, and lung pathology in mitral stenosis (Jordan *et al.*). 101
  - of right ventricular involvement in obstructive cardiomyopathies, 13 cases (Lockhart *et al.*). 122
- Heart, disease, acquired, in Ugandan children (Caddell *et al.*). 759
- adult, due to Coxsackie virus group B (Smith). 204
  - congenital cyanotic, dyspnoea, differential hypercapnia in Eisenmenger ductus in relation to (Davies & Gazetopoulos). 429, *P.*
  - — — renal changes (Rennie). 850, *P.*
  - — — occurrence of right aortic arch (Hastreiter *et al.*). 722
  - — — in Ugandan children (Caddell & Connor). 766
  - — — cigarette smoking habits in patients (Mulcahy & Hickey). 404
  - — — *see also Artery, coronary, disease*
  - — — hypertensive, influence of beta-adrenergic blockade on left atrial contraction (Fleming & Hamer). 850, *P.*
  - — — ischaemic, high frequency electrocardiography (Boyle *et al.*). 539
  - — — influence of beta-adrenergic blockade on left atrial contraction (Fleming & Hamer). 850, *P.*
  - — — effects of clofibrate, with and without androsterone on blood platelets and lipids in (Fox & Hugh). 400
  - — — new platelet defect, (Bray & McDonald). 429, *P.*
  - — — and synalbumin insulin antagonism (Vallance-Owen). 848, *P.*
  - — — value of coronary arteriography (Hale *et al.*). 40
  - — — occult thyrotoxic, theory and treatment (Symons). 852, *P.*
  - — — rheumatic, in the young in Iraq (Al-Bahrani *et al.*). 824
  - — — ventilation, in response to arterial and venous blood chemistry (Gazetopoulos *et al.*). 16
  - — — and hæmodynamics (Gazetopoulos *et al.*). 1
  - — — *see also Myxœdema*
  - electrical threshold, man (Davies & Sowton). 231
  - failure, excretion of urocanic acid following oral histidine in heart failure (Daly & Rose). 698
  - from unexplained cardiomyopathy (Barritt & Al-Shamma'a). 674
  - rate, effect of degree of tilt on, normal man (Tuckman & Shillingford). 32
  - slow, following acute myocardial infarction, treatment (Harris & Bluestone). 631
  - tumour, primary sarcoma of the left atrium: case report (Raftery *et al.*). 287
  - Wedensky effect in, man (Castellanos *et al.*). 276

Histidine, oral, excretion of urocanic acid following, in heart failure (Daly & Rose). 698

Homograft, aortic valve, pathology (Hudson). 291, 429, *P.*

Hypercapnia, differential, in the Eisenmenger ductus in relation to the dyspnoea of cyanotic congenital heart disease (Davies & Gazetopoulos). 429, *P.*

Hypertension, chronic human, morphology of intestinal arterioles (Short). 184

    - due to subadventitial fibrosis of the renal artery (Lytle & McCaughey). 382
    - pulmonary, familial primary (Parry & Veral). 193
    - right ventricular, right ventricular forces in, electrocardiographic lead systems (Gamboa *et al.*). 62
    - systemic, left ventricular events (Parameshvara & Singh). 709

Hypertrophy, left ventricular, in chronic bronchitis (Fluck *et al.*). 92

Hypotension, effect of atropine on in acute myocardial infarction (Thomas & Woodgate). 409

Hypotension systemic, in acute myocardial infarction, associated with circulatory changes (Thomas *et al.*). 108

Impulse, cardiac, in hypertrophic obstructive cardiomyopathy (Nagle *et al.*). 419

    - in ventricular aneurysm (Mourdjinis *et al.*). 430, *P.*

Incompetence, *see Regurgitation*

Inderal, *see Propranolol*

Infarction, cardiac, acute, and early pulmonary œdema (Fluck *et al.*). 851, *P.*

    - myocardial, acute, acid base balance (McNicol & Kirby). 851, *P.*
    - — — bradycardia in (Fluck *et al.*). 430, *P.*
    - — — and hypotension in, effect of atropine (Thomas & Woodgate). 409
    - — — circulatory changes associated with systemic hypotension in (Thomas *et al.*). 108
    - — — haemodynamic respiratory and metabolic changes following, special reference to hyperbaric oxygen (Hutton *et al.*). 852, *P.*
    - — — treatment of slow heart rates following (Harris & Bluestone). 631
    - — — ATP: creatine phosphotransferase in diagnosis (Griffiths 199
    - — — experimental, collateral blood flow in, recovery changes measured with <sup>131</sup>xenon (Rees & Redding). 851, *P.*

Insulin antagonism, synalbumin, and ischaemic heart disease (Vallance-Owen). 848, *P.*

Ions, and action of digitalis (Weatherall). 497

Iraq, rheumatic heart disease in the young in (Al-Bahrani *et al.*). 824

Jamaica, myocarditis in (Hayes & Summerell). 172

Kidney, hypertension due to subadventitial fibrosis of the renal artery (Lytle & McCaughey). 382

    - *see also Renal*

Lævocardia, isolated, and dextrocardia (Campbell & Deuchar). 472

Lactic dehydrogenase isoenzymes in myxœdema heart disease (Aber *et al.*). 663

Leads, II and III, limb, significance of S waves in (Evans). 829

    - appropriate, in electrocardiography (Cliff). 780
    - *see also Electrocardiography*

Levine, Samuel Albert, Obituary, 853

Lipid(s), effects of clofibrate, with and without androsterone, in ischaemic heart disease (Fox & Hugh). 400

    - levels, plasma, and diagnosis of coronary arteriosclerosis in England (Mills & Wilkinson). 638

Lobeline, intravenous, respiratory effects, in mitral stenosis and in normal subjects (Bruderman *et al.*). 740

Lung, pathology, in relation to respiratory function and pulmonary hæmodynamics in mitral stenosis (Jordan *et al.*). 101

Mitral stenosis, *see Stenosis*

Myocarditis in Jamaica (Hayes & Summerell). 172

    - rubella, neonatal (Ainger *et al.*). 691

Myocardium, of atrial appendage, ultrastructure (Lannigan & Zaki). 796

    - dysfunction, cellular chemical approach (Braimbridge *et al.*). 848, *P.*
    - ventricular, calcification in (Kirk & Russell). 342

Myxœdema heart disease, serum lactic dehydrogenase isoenzymes in (Aber *et al.*). 663

- Needle, electrode, pericardiocentesis (Gotsman & Schire). 566  
 Neoplasms, cardiac, intracavitory, 15 cases (Sterns *et al.*). 75  
 — see also Tumours  
 Neuroleptanalgesia with dehydrobenzperidol and phenoperidine, clinical and circulatory effects (Macdonald *et al.*). 654  
 Nitroglycerin, haemodynamic effects, and of angina pectoris in normal and anginal subjects (Hoeschen *et al.*). 221  
 Oedema, pulmonary, early, in acute cardiac infarction (Fluck *et al.*). 851, P.  
 Open-heart valvular surgery, cardioversion following (Yang *et al.*). 309  
 Output, cardiac, effect of degree of tilt on, normal man (Tuckman & Shillingford). 32  
 — serial determinations at rest (Grimby *et al.*). 118  
 Oxygen analyser, continuous flow paramagnetic evaluation, the Junkalor Spirolyt (Barold *et al.*). 776  
 — hyperbaric, effects on haemodynamic, respiratory, and metabolic changes in acute myocardial infarction (Hutton *et al.*). 852, P.  
 Pacemaker, artificial, elective circulatory arrest by (Small *et al.*). 427, P.  
 — function and malfunction, assessing myocardial threshold and impedance in complete heart block (Judge *et al.*). 427, P.  
 Pacing, artificial, by electrode catheter for heart block or asystole complicating acute myocardial infarction (Epstein *et al.*). 546  
 Pericarditis, rheumatoid, with cardiac failure, treated by pericardiectomy (Kennedy *et al.*). 602  
 Persantin, see Dipyridamole  
 Phenoperidine and dehydrobenzperidol, neuroleptanalgesia with, clinical and circulatory effect (Macdonald *et al.*). 654  
 Phonocardiogram, Q-1 interval, in atrial septal defect Karnegis & Wang). 240  
 Phonocardiography of patients with multiple Starr-Edwards prosthetic valves (Boycourt *et al.*). 531  
 Platelets, blood, effects of clofibrate, with and without androsterone on, in ischaemic heart disease (Carson *et al.*). 400  
 Pressures, intraventricular, first derivative in complete transposition of great vessels (Shah & Kidd). 712  
 — see also Blood pressure  
 Pronethalol for cyanotic attacks (Singh & Gotsman). 98  
 Propranolol (Inderal), in angina pectoris, prophylactic value (Rabkin *et al.*). 430, P.  
 — effect on exercise tolerance in angina pectoris (Hamer *et al.*). 414  
 — in paroxysmal ventricular tachycardia: case report (Kernohan). 577  
 Pulmonary vascular obstruction, and right ventricle in bronchitis with emphysema (James). 512  
 — resistance after mitral valve replacement (Tubbs *et al.*). 849, P.  
 Regurgitation, mitral, non-rheumatic, causes, clinical features (Raftery *et al.*). 428, P.  
 — with rupture of normal chordæ tendineæ (Marchand *et al.*). 746  
 Renal changes in cyanotic congenital heart disease (Rennie). 850, P.  
 — vascular disease, circulation (Taylor & Donald). 851, P.  
 Respiration, in mitral stenosis, and lung pathology (Jordan *et al.*). 101  
 — — and in normal subjects, after intravenous lobeline (Bruderman *et al.*). 740  
 Responses, cardiorespiratory, to upright exercise, normal men, aged 20-29 and 30-39 (Hanson *et al.*). 557  
 Resuscitation, cardiac, metabolic problems (Ball). 430, P.  
 Rhythm, ventricular, ectopic, genesis and evolution (Schamroth). 244  
 Rubella myocarditis, neonatal (Ainger *et al.*). 691  
 Sarcoma, primary, of the left atrium (Raftery *et al.*). 287  
 Sclerosis, senile nodular, of atrio-ventricular valves, pathogenesis (Pomerance). 815  
 Shock therapy, direct current, of cardiac arrhythmias (Szekely *et al.*). 366  
 — — see also, Conversion, direct current  
 Shunts, intracardiac, carbon monoxide diffusion of lungs in assessment of pulmonary blood flow in (Lewis & Brink). 359  
 — left-to-right, haemodynamic changes on exercise in patients with (Davies & Gazetopoulos). 579  
 — ventilatory response to exercise in patients with (Gazetopoulos & Davies). 590  
 Situs inversus and isolated dextrocardia (Campbell & Duechar). 472  
 Smoking, cigarette, habits of patients with coronary heart disease (Mulcahy & Hickey). 404  
 Spirolyt, Junkalor, evaluation of a continuous flow paramagnetic oxygen analyser (Barold *et al.*). 776  
 Stenosis, aortic, supravalvar (Gearty). 429, P.  
 — mitral, lung pathology in relation to respiratory function and pulmonary haemodynamics (Jordan *et al.*). 101  
 — and pulmonary, combined: case report (McCredie & Richards). 139  
 — respiratory effects of intravenous lobeline (Bruderman *et al.*). 740  
 — subvalvar congenital, three patients (Cascos *et al.*). 808  
 — pulmonary, haemodynamic effects of exercise (Howitt). 152  
 — with intact ventricular septum, effect of exercise (Ikks *et al.*). 316  
 — and mitral, combined: case report (McCredie & Richards). 139  
 — subaortic, idiopathic hypertrophic, a wave of apex cardiogram in (Wolfe). 179  
 Stimulation, paired, of the heart, experimental results and clinical application (Sowton *et al.*). 622, 427, P.  
 Subclavian-steal syndrome, pattern of blood flow, congenital aortic arch abnormalities with: case report (Bradley). 718  
 Surgery, bypass, in coronary arterial disease complicating aortic valvar disease (Boyle *et al.*). 428, P.  
 Synalbumin insulin antagonism and ischaemic heart disease (Vallance-Owen). 848, P.  
 Tachycardia, ventricular paroxysmal, propranolol in: case report (Kernohan). 577  
 Tetralogy of Fallot, one-stage repair, haemodynamic and cineangiographic findings (Gotsman). 448  
 — measurement of ventricular volumes by thermodilution techniques after radical correction of (Wong & Dulake). 426, P.  
 — outflow tract, increasing obstruction (Gotsman). 615  
 Thermodilution technique, for measurement of ventricular volumes after radical correction of tetralogy of Fallot (Wong & Dulake). 426, P.  
 — technique, for measurement of ventricular volumes (Balcom). 426, P.  
 Threshold, electrical, of the human heart (Davies & Sowton). 231  
 Thromboangiitis obliterans, clinical, histological, radiographic, and prognostic features (Schatz *et al.*). 84  
 Thyrotoxicosis, occult, and heart disease, theory and treatment (Symons). 852, P.  
 Tilt, effect on cardiac output, heart rate and blood pressure, normal man (Tuckman & Shillingford). 32

- Transposition, complete, of great vessels, first derivative of intraventricular pressures (Shah & Kidd). 712  
 — — of great vessels, in infancy, reference to palliative surgery (Venables). 335  
 — — of great vessels, electrocardiogram (Shaher & Deuchar). 265  
 Truncus arteriosus, persistent, survival to the age of 38 years: case report (Hicken *et al.*). 284  
 Tumour(s), cardiac, intracavitary (Sterns *et al.*). 75  
 — heart, primary sarcoma of the left atrium: case report (Raftery *et al.*). 287  
 — see also Neoplasms
- Ugandan children, acquired heart disease in (Caddell *et al.*). 759  
 — — congenital heart disease in (Caddell & Connor). 766  
 Urocanic acid, excretion following oral histidine in heart failure (Daly & Rose). 698
- Valve(s), aortic, disease, coronary arterial disease complicating, and bypass surgery (Boyle *et al.*). 428, P.  
 — — homograft, pathology (Hudson). 291, 429, P.  
 — — — replacement, indications and results (Ross *et al.*). 849, P.  
 — atrio-ventricular, pathogenesis of senile nodular sclerosis (Pomerance). 815  
 — mitral, prolapse, clinical and cine-angiographic findings (Criley *et al.*). 488  
 — — prosthesis, Hammersmith, evaluation (Dayem *et al.*). 849, P.  
 — — replacement indications (Belcher). 849, P.  
 — — — pulmonary vascular resistance after (Tubbs *et al.*). 849, P.  
 — prosthetic, Starr-Edwards, multiple, phonocardiography of patients (Boicourt *et al.*). 531
- Valve(s) tricuspid, Ebstein's anomaly, diagnostic value of electrode catheters (Watson). 161  
 Ventilation, and arterial and venous blood chemistry in heart disease (Gazetopoulos *et al.*). 16  
 — and haemodynamics in heart disease (Gazetopoulos *et al.*). 1  
 — — pulmonary, exercise in patients with left-to-right shunts (Gazetopoulos & Davies). 590  
 Ventricle, left, events, in systemic hypertension (Parameshvara & Singh). 709  
 — — — outflow tract, anatomy and importance (Walmsley & Watson). 435  
 — right, double outlet, 16 cases, 10 necropsy specimens (Venables & Campbell). 461  
 — — involvement in obstructive cardiomyopathies, haemodynamic studies in 13 cases (Lockhart *et al.*). 122  
 — — and pulmonary vascular obstruction in bronchitis with emphysema (James). 512  
 Vessels, great, see Transposition  
 Virus, Coxsackie, group B, causing adult heart disease (Smith). 204  
 Volumes, ventricular, measurement by thermodilution technique (Balcon). 426, P.  
 — — measurement by thermodilution technique after radical correction of tetralogy of Fallot (Wong & Dulake). 426, G.
- Wave(s), A, of apex cardiogram in idiopathic hypertrophic subaortic stenosis, 179  
 — S, significance, in limb leads II and III in the electrocardiogram (Evans). 829  
 — T, giant inversion (Jacobson & Schrire). 768  
 Wedensky effect in the human heart (Castellanos *et al.*). 276  
 Wenckebach phenomenon in sino-atrial block Schamroth & Dove). 350
